

IMAGINE

COMPLETE CONTROL OVER YOUR HOME

WHETHER YOU'RE A HOMEOWNER, RENOVATOR OR DEVELOPER, YOU'LL NO DOUBT BE LOOKING FOR THAT EXTRA DIFFERENTIATION AND INDIVIDUALITY FOR YOUR PROPERTY.

Home Automation is becoming increasingly popular and almost a pre-requisite in refurbished and new homes, as it offers a host of lifestyle and security benefits. Just imagine.....
complete control over your home...comfort, convenience, security, energy efficiency and lots more.

YOU DON'T HAVE TO GO ALL THE WAY TO BE IN CONTROL...

UNIQUE HOME AUTOMATION WITH THE IQYOURHOME 'ENABLING PANEL'*

IQYOURHOME.COM PRESENTS A UNIQUE POINT OF DIFFERENTIATION. UNLIKE OTHER HOME AUTOMATION COMPANIES IQYOURHOME.COM ALLOWS YOU TO SIMPLY 'ENABLE' YOUR HOME FOR AUTOMATION, WITHOUT A FULL SYSTEM HAVING TO BE INSTALLED.

The unique IQYourHome 'Enabling Panel', which has been developed to work with all our Home Automation systems, allows a property to be wired in such a way that it is 'Enabled' for Home Automation but does not necessarily have to have the system installed

*patent pending

during the build stages of a project. This gives the flexibility to automate all or part of a property at any time in the future, as budgets and requirements dictate. An 'Enabling Panel' is inexpensive and also replaces the need for a separate electrical distribution board.

UNIQUE HOME AUTOMATION

UNIQUE HOME AUTOMATION WITH THE IQYOUR HOME 'ENABLING PANEL'

BENEFITS FOR THE HOMEOWNER AND RENOVATOR

If budgets are limited, but you have always dreamed of enjoying the full benefits that an automated home will deliver, the installation of an IQYourHome 'Enabling Panel' means you 'future proof' your home now. You can then contact your local Accredited Installer at any time to install a complete Home Automation system.

BENEFITS FOR THE DEVELOPER

This unique concept is ideal for developers who want to enable their properties ready for Home Automation but do not want to incur the costs of installing a system before completion of sales. In this situation properties can be promoted as being Home Automation enabled, and then the installation of the product can be on-sold as an optional extra to the prospective purchaser. Future owners would then have the flexibility to upgrade to a full Home Automation system at any time.

SPECIFICATION FOR THE IQYOURHOME ENABLING PANEL

The IQYourHome 'Enabling Panel' is manufactured to BSEN 60439-3, specifically to our design by Contactum Ltd.

Founded in 1936, Contactum is an independent British manufacturer of Electrical accessories, Circuit protection and Control equipment. The panel has been manufactured not only to complement IQYourHome.com's Home Automation products, but also to make the whole process of 'future-proofing' a property for automation as easy as possible.

The 'Enabling Panel' takes the place of the property's conventional electrical distribution board and uniquely still allows you to use standard twin and earth cable when wiring for future automation.

ABOUT IQYOURHOME.COM

IQYourHome.com, with their manufacturing partners have been involved in the design and manufacture of innovative Home Automation products since 1986. As specialists in smart home technology we offer a complete consultancy service including system design and supply.

We have established a national network of Accredited Installers who are fully trained to install the 'Enabling Panel' and to both install and program Home Automation systems from IQYourHome.com. Go to www.iqyourhome.com for an Accredited Installer local to you.
